Product Specification Sheet

90W Mains & Car / Aeroplane Notebook Power Adapter

Part #: APM12EU

Product Description:

The Targus Combination AC and Auto/Air notebook power adapter allows mobile users to power and charge their high performance (Pentium 4+) notebook from any power source. At home, in the office, or even on the road, this adapter will keep you switched on and productive. Utilising an intelligent tip system, this power adapter is compatible with all major notebook brands and will provide up to 90W continuous power for power-hungry notebooks. Combined with our optional Accessory Powering System, users can simultaneously charge or power their mobile phone or PDA thereby eliminating the need to carry extra bulky power adapters or chargers.

Product Features and Specifications:

- All in one AC and Auto/Air notebook power adapter
- Power or charge your mobile equipment at home, in the office or even on the road, in fact anywhere, anytime across Europe
- Compatible with major notebook brands requiring 90W of continuous power or less
- Save time, money and space via the optional Accessory Powering System (APS) which when attached to this adapter enables you to simultaneously charge a mobile phone or handheld, whilst also charging your notebook
- **Dual Solution:** Compatible with the Targus Accessory Powering System for simultaneous charging of a notebook and digital device
